HYDROBIOLOGIA
Volume 434, 1 September 2000

The influence of a planktivorous fish on zooplankton assemblages in experimental billabongs
D.L. Nielsen, T.J. Hillman, F.J. Smith, R. J. Shiel 1–9

Species interactions between estuarine detritivores: inhibition or facilitation?
Charles T. Chong, Scott T. Larned, Alan P. Covich, Robert A. Kinzie III 11–16

An Index of Biotic Integrity characterizing fish populations and the ecological quality of Flandrian water bodies
Claude Belpaire, Roel Smolders, Ina Vanden Auweele, Dirk Ercken, Jan Breine, Gerlinde Van Thuyne, Frans Ollevier 17–33

Seasonal variation of biomass and productivity of the periphytic community on artificial substrata in the Jurumirim Reservoir (São Paulo, Brazil)
Viviane Moschini-Carlos, Raoul Henry, Marcelo L. M. Pompêo 35–40

Species richness of pelagic Cladocera of large lakes in the eastern hemisphere
N.M. Korovchinsky 41–54

An analytical flat-plate photobioreactor with a spectrally attenuated light source for the incubation of phytoplankton under dynamic light regimes
Terence J. Evens, David J. Chapman, Rebecca A. Robbins, Eric A. D'Asaro 55–62

Invertebrate colonization of woody debris in coastal plain streams
Donna M. Drury, William E. Kelso 63–72

Effect of UVB radiation on the survival, feeding, and egg production of the brackish-water copepod, *Sinocalanus tenellus*, with notes on photoreactivation
Dorothy G. Lacuna, Shin-ichi Uye 73–79

Nutrient enrichment and zooplankton effects on the phytoplankton community in microcosms from El Andino reservoir (Venezuela)
Ernesto J. González 81–96

New Tetragonicipitidae (Copepoda, Harpacticoida) from the Indo-Pacific
Frank Fiers, Marleen De Troch 97–144

Causative microorganisms for musty odor occurrence in the eutrophic Lake Kasumigaura
Norio Sugiura, Kazunori Nakano 145–150

Planktonic protozooplankton (ciliates, heliozoans and testaceans) in two shallow mesotrophic lakes in China – a comparative study between a macrophyte-dominated lake (Biandantang) and an algal lake (Houhu)
Song Biyu 151–163

Patterns of reproduction and development of selected resident teleosts of Florida salt marshes
Frank G. Nordlie 165–182

Seasonal variations of *Microcystis* populations in sediments of Lake Biwa, Japan
Shigeo Tsujimura, Hajime Tsukada, Hiroyuki Nakahara, Takuo Nakajima, Machiko Nishino 183–192

Leaf breakdown in a regulated desert river: Colorado River, Arizona, U.S.A.
Kimberly E. Pomeroy, Joseph P. Shannon, Dean W. Blinn 193–199

Decomposition of duckweed (*Lemna gibba*) under axenic and microbial conditions: flux of nutrients between litter water and sediment, the impact of leaching and microbial degradation
Sándor Szabó, Mihály Braun, Péter Nagy, Sándor Balázsy, Otto Reisinger 201–210

Note

Mixed multispecific schools of littoral Anomopoda (Crustacea: 'Cladocera')
Alexey A. Kotov 211–212

Books received 213–215

Book reviews 217–225

Author index 227
